

SHIELDCOAT TECHNICAL DATA SHEET

MOULDSHIELD K

DESCRIPTION

Mouldshield K is a super-strength mould killer, specially formulated for the safe and effective treatment of asbestos roofs and tile roofs prior to priming. Its potent formulation acts rapidly to eradicate mould, providing a clean and safe surface for subsequent treatments. Developed with advanced chemical engineering, Mouldshield K penetrates the porous nature of roof materials to deliver deep, long-lasting mould elimination.

Available in a 600ml bottle or 4L pails

APPLICATION GUIDE

- Mix 1 part Mouldshield K with 20 parts water.
- Apply using a backpack sprayer or low pressure airless on asbestos.
- Allow the solution to dry completely (typically overnight).
- Do not wash off Mouldshield K. It must remain on the surface as part of the Shieldcoat anti-fungal system.

MOULDSHIELD K

COVERAGE: Up to 200sqm
THINNING: 20:1 with water
RECOAT: 24 Hours
SHELF LIFE: 24 Months
CLEAN UP: Water

DISCLAIMER: Shieldcoat emphasizes that it is the responsibility of the applicator to assess and confirm the product's suitability for its intended use before application. The information and recommendations provided in this document were accurate and valid at the time of writing.
